MIGHTY HARD JOB TO ESCAPE INCOME TAX

Somebody is going to tell on you if you don't pay your income tax. Congress has fixed it so that somebody must tell, whether he wants to or not.

One section of the War Income Tax Law, exhaustively comprehensive in scope, requires every person, without exception, and every corporation, partnership, association, and insurance company, in whatever capacity acting, who paid \$800 or more to another person, corporation, partnership, association, or insurance company, as salaries, wages, interest,

rent, premiums, annuities, compensation, remuneration, emoluments, or other fixed or determinable gains, profits, and income, to report the name and address of the person, corporation, etc., to whom the payment was made, together with the amount of payment, to the Commissioner of Internal Revenue at Washington, using a form prescribed for the purpose—Form 1099, now to be had from all collectors' offices. The forms must be filled out and returned on or before March 1, 1918, accompanied by Form 1096, which is a letter of transmittal and affidavit certifying the accuracy of Form 1099.

FOOD PRODUCTION TO BE GIVEN GREAT ATTENTION

The food administration will pay greater attention than ever during the coming year to the matter of production, was announced today by Timothy A. Riordan, federal food administrator for Arizona. Mr. Riordan is in receipt of a letter from Herbert Hoover in which he says:

"While necessarily the determination of policy on production is in the hands of the Department of Agriculture and its agencies, I feel sure that it is a prime duty of the Food Administration to inflame the imagination of the farmers to the national necessity. The particular crop that the farmer raises is of secondary importance to the Food Administration, as compared to production, so long as it yields an increase in human and animal food."

"Practically any crop of this character will assist in reducing the world shortage. The main thing is to get planting and breeding on a larger scale than hitherto. What we want to instill into the farmer's mind is that the responsibility rests upon him if this cause is to be won."

"I know his feeling about labor is discouraging but I still believe a super-effort by our farmers will get the greatest crop planted. Given that it is planted, we can find a solution to its harvest somehow, if we have to turn our town population into the fields. We also need this year to further stimulate the planting of gardens on all sides and everywhere. All producers have enjoyed good prices for products and this background for production could not be better."

In reply Mr. Riordan has written Mr. Hoover, pledging the co-operation of his office in the furtherance of plans looking to the material increase in production in this state during the coming season, and definite steps to this end will be taken shortly.

FEWER MEN IN HOSPITALS IN U. S. THAN OVERSEA

A recent comparison of the health reports from troops in the United States and the Expeditionary Forces shows the admission rate to hospitals to be greater among the men in France.

Admissions to hospitals in one week in the expeditionary forces, figured on a basis of 1,000 men, were 45.2; in the United States the rate was 33.7 per 1,000 men. In the overseas forces the non-effective rate (the total number of men excused from duty for any injury or ailment, whether or not ordered to hospital) was 54.1 per 1,000 men; in the troops in the United States it was 46.4.
